DEBORAH JONES
SUPERVISORY PATENT EXAMINER

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

In the Amendment to the Specification filed by the Applicant on 12-8-03, in the text to be added to page 1 titled "Cross Reference to Related Applications", delete the word "allowed" in the 3rd line and insert therefore --US Patent No. 6,723,451--.

The following is an examiner's statement of reasons for allowance:

The prior art such as Sowman (US 3,795,524) teaches that composite wires may be formed from metal matrices containing substantially continuous, longitudinally positioned ceramic oxide fibers. Sowman further teaches that the metal matrix material may be aluminum and that the ceramic oxide fibers have moduli within the range claimed. However, the prior art does not teach or suggest how to form a wire having a nonlinear coefficient of thermal expansion over the claimed temperature range or that such a wire exhibiting a nonlinear coefficient of thermal expansion would be desirable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason L Savage whose telephone number is 571-272-1542. The examiner can normally be reached on M-F 6:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Jones can be reached on 571-272-1535. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
